Dr. Thomas P. Robinson
New York University
Washington Square
New York 3, New York

Dear Dr. Robinson:

Your letter of November 24 to Mr. Robert Vincent has been referred to me.

About a year ago, the school district was seriously considering whether to continue its radio station, and in fact did go off the air for a number of months. At present we are now broadcasting five evenings a week as well as picking up occasional week-end athletic contests. Our projected plans for 1965-66 call for an increased use of these facilities and, therefore, we are not contemplating releasing the frequency, nor do we anticipate a sharing of it.

Adelphi University has been in close contact with us regarding a sharing of the frequency, and should the Board of Education consider such an arrangement, that school would have first choice.

Thank you very much for your interest in the station, and I'm very sorry that your first letter was unanswered.

Sincerely yours,

Carey T. Smith
